

FUEL'Z EDGE[®]

by **ATLAS** Fuel Services

Our proprietary formula is designed to clean, stabilize and provide cold weather protection for diesel fuel stored in bulk tanks and generators.

Product benefits:

- Advanced detergents to help clean and keep fuel injectors clean
- Cold weather protection to help reduce kerosene blending
- Helps lower pour point by up to 20°F
- Works to maximize fuel economy and enhance filter life
- Moisture control helps prevent fuel system icing
- Complements biodiesel blends

Typical Properties

Appearance	Clear dark liquid
Specific Gravity, 60°F	0.902
Density, lb./gal, 60°F, (15.6°C)	7.53 lbs./gal
Flash Point, PMCC, °F	112 F
Pour Point, °F	<-5F
Viscosity, cSt @ (40°C)	10.49 cSt

Variable Treatment Formula

1 gal. of Fuel'z Edge treats 1,500 gal. to 2,500 gal. of ULSD, depending on conditions and desired performance.
